

NATIONAL PAVILION OF TÜRKİYE

HALL D
2-6 June 2025
Oslo / Norway

Türkiye is one of the leading countries in World trade under favour of its geopolitical position, historical background, cultural richness and industrial development level. By virtue of all these advantages, Türkiye's export amounts have been rising year by year. Especially in last 10 years, Türkiye breaks its own exporting records in a row. Despite the global economic crisis, Turkish Ship and Yacht Sector was near 2 billion dollars of export amounts in recent years.

As Turkish Ship Yacht and Marine Services Exporters' Association we are organizing and participating in major maritime exhibitions, arranging workshops, following all the news and developments about sector, performing Works and studies to find a way about all the issues of sector, organizing sectoral trade delegations to target countries with the intention of increase our export level more and more.

In this context, we are glad to participating in NORSHIPPING 2025, one of the Global Shipping Industry's foremost events, as Turkish Ship Yacht and Marine Services Exporters' Association. Turkish companies participating in such an important event, reflect the Turkish Ship Yacht and Marine Services industries' World class expertise in the sector, be it master planning, high-end engineering, designing, Project management and consultancy or innovative and environmentally friendly products.

I hope that during this fair all Turkish compaines will take the opportunity to discuss the ways in which we can help tackle barriers that are getting in the way of new business opportunities in Shipping Sector.

Thanks to all Exhibitors of Turkish National Pavilion and everyone who contributed to make this event possible.

Cem SEVEN

Chairman of The Board

Turkish Ship Yacht and Marine Services Exporters' Association

ABOUT TURKISH SHIP YACHT AND MARINE SERVICES EXPORTERS' ASSOCIATION

ABOUT TURKISH SHIP YACHT AND MARINE SERVICES EXPORTERS' ASSOCIATION

Turkish Ship Yacht and Marine Services Exporters' Association was established in April 2010. Its mission can be defined as to contribute sustainable economic development to Turkish Ship and yacht sector through improving exportation. It has over 1750 members as of 2025.

Aim of Turkish Ship Yacht and Marine Services Exporters' Association can be defined as enhancing export capacity and performance of the sector and supporting its member companies for better commercial relations and practices in foreign trade.

Turkish Ship Yacht and Marine Services Exporters' Association maintain several activities and practices, as:

- Contribution in designing sector policies and priorities,
- Conducting market researches,
- Conducting projects to enhance the sector's competitiveness,
- Keeping export statistic and reporting,
- Preparing evaluation reports,
- Organizing National Pavilions of Türkiye at International Maritime Exhibitions,
- Organizing match making events such as incoming and outgoing trade delegations,
- Preparing sector brochures and profiles,
- Vocational training activities

SHIPBUILDING INDUSTRY

The history of shipbuilding in Anatolia dates back to 1200s. During Ottoman period, the industry reached at a worldwide size. Following foundation of the Republic, shipyards were given special importance. At the beginning, they were mostly located around the Bosphorus and Haliç (the Golden Horn), but after 1969 they moved to Tuzla, Yalova and other coasts.

Türkiye, surrounded by sea on three sides, is a natural bridge between Asia and Europe. It has borders to the Black Sea, the Mediterranean, the Aegean and the Sea of Marmara. The growth of the World trade, high freight rates and renewal of Merchant fleets in accordance with international rules are effective in the development of the sea transport and shipbuilding industry. As a result of Türkiye's geographical location and global

developments, Türkiye's shipbuilding industry has been boosted.

Traditional shipbuilding skills combined with modern techniques and education has enabled Turkish shipbuilding industry to develop into an internationally known trademark since early 1990s. Türkiye is a growing force within the international maritime sector. Turkish shipbuilding industry has modern, technologically developed and certified shipyards, together with a well-experienced work force. The industry has rapidly achieved significant development in a short period of time. In 2000s, Türkiye improved its shipbuilding industry rapidly and became the fifth largest shipbuilding country in the world.

YACHT BUILDING INDUSTRY

Traditional boat building skills combined with modern techniques and education has enabled the Turkish boat and yacht building industry to become an internationally known source since the early 1990s. Turkish boat building companies follow the technological developments in their shipyards. Yachts and Boats built in Türkiye have been exported almost all over the world. Türkiye has shown great progress in building Boats, Yachts and Mega Yachts. Our clients are pleased by repeating orders and getting value for our services. Türkiye seems to be standing forward for its services and price advantages when compared to the other countries in the boat and yacht building sector.

REMARKABLE TYPES OF BOATS AND YACHTS ARE DESIGNED AND PRODUCED IN TÜRKİYE

Classic Wooden Yachts. Turkish Boat Industry proudly builds classic wooden yachts by design offices, engineers and highly skilled craftsmen. The virtues of the craftsmen are based on 800 years of Turkish boatbuilding tradition. Each yacht is customized for its owner by using variety of options and alternatives to standard features.

Mega Yachts: Since 1992, Türkiye retains its leading position in the world. In terms of the number of yachts and length, with regard to mega yachts. Turkish yards have gained recognition in the World Boat Industry because of their quality.

Türkiye is a repair and maintenance center in the world as well as a production center. Serving thousands of foreign flagged yachts each year.

TÜRKİYE AT A GLANCE

Türkiye is on the crossroads where two continents meet and serving as a bridge between the East and the West. Türkiye, a member of European Customs Union since 1996, launched EU accession negotiations by 2005. The membership to the WTO and the Customs Union relations are Türkiye's pivotal economic involvements laying a free and fair trading environment in Türkiye. Türkiye has signed Free Trade Agreements (FTA) with 16 countries and, more FTA's are underway.

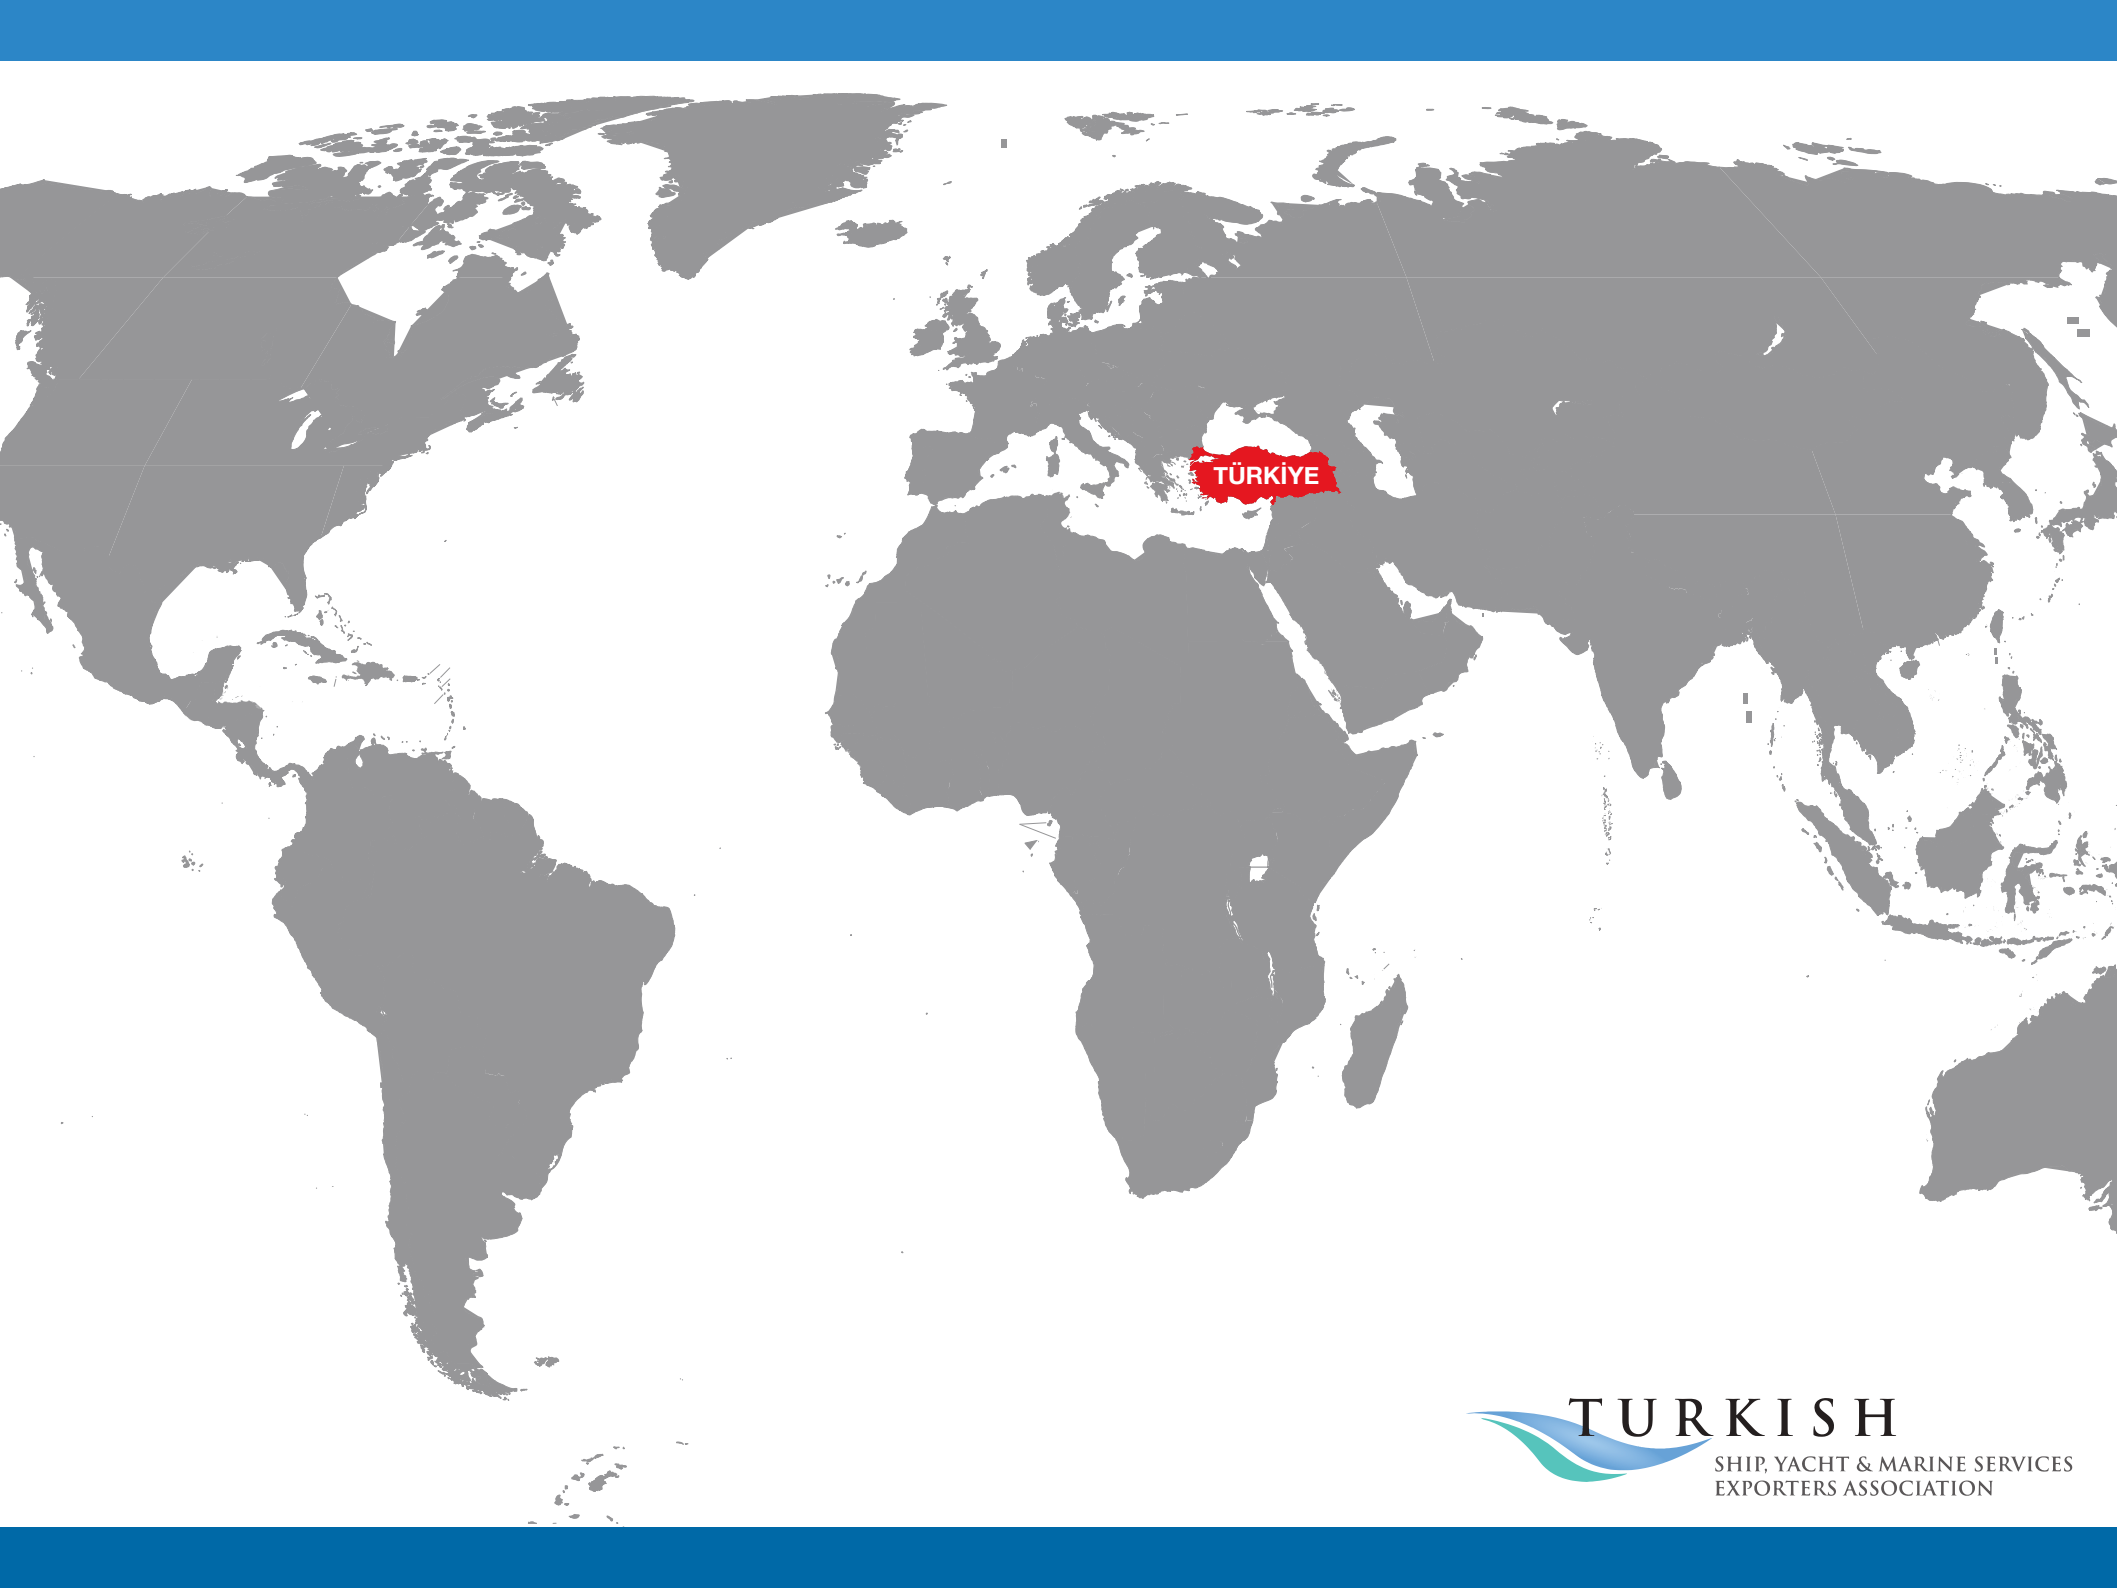

In spite of negative effects of the global crisis, Türkiye ranks 17th among the largest economies in the World and 6th in Europe. Türkiye is boldly being displayed as one of the top ten emerging economies of the World by the leading authorities in the field.

Türkiye lies between Asia and Europe serving as a bridge geographically, culturally and economically. Thanks to its favourable ecological conditions and climate, Türkiye benefits from a major agricultural sector and is the largest producer and exporter of agricultural products in the near region.

Türkiye's advantages:

- Advantageous geographical location,
- Favourable climate conditions,
- Proximity to major markets

With its favourable geographical conditions and climate, Türkiye is considered to be one of the leading countries, especially in the field of agriculture and related industries. This impressive position is best attested by rising exports in almost every kind of agricultural products.

ABOUT COMPANY:

Since its establishment in 1969, our company has been the pioneer in the production and supply of scuttles and ship windows for the Turkish Shipping Industry in Türkiye. Based on our experience of over 40 years in this business segment, we started designing, developing and manufacturing a wide range of A60 fire and heat resistant side scuttles and ship windows for the first time in Türkiye in 2000. After completing the tests, which were done by internationally reputed and accredited test laboratories with excellent results, our products were entitled for EC Type Approval and Marine Equipment Directive (MED) certificates by Bureau Veritas (BV).

The vision of ALIŞ ALÜMİNYUM İŞ is continuous development, sustainable quality and customer satisfaction. Thus, our production procedures were certified by ISO 9001 Quality System in 2005. It is testimony to our products and service in excellent quality.

PRODUCT RANGE : New ship building and construction up to 200 x 60 m all kinds of vessel. Ship repair, maintenance, conversion for all kinds of vessel up to 370 x 70 m

ABOUT COMPANY:

30 İÇDAŞ has the proud of bringing a very well-established family tradition, which started with ship repairing in İstanbul in 1880's, up to the present day. Aslan family, which made a bold step into the steel industry with casting and machinery processing in 1954 and built its first rolling mill in 1961, has brought İstanbul Çelik Demir İzabe Sanayi A.Ş. into life in 1969

The Shipbuilding business took a new turn in 1996 when İÇDAŞ bought Biga Shipyard, which had been operating since 1960. This facility, located next to the company's integrated steel mill complex at Çanakkale, significantly expanded its shipbuilding activities. The ship repair shop of early 1900's became a multi million USD integrated facility after acquiring a shipyard in Biga-Çanakkale Province in 1995. İÇDAŞ, which has been producing structural steel and alloy steel is the 2 largest steel producer in Turkey with its production capacity

İÇDAŞ also have one of the largest dry dock in the region and the largest dry dock in Turkey with a length of 370 metres, a width of 70 metres and a depth of 10 metres and also able to carry out ship repairs and maintenance at 540 metres long berth.

Sanmar's core business is building tugboats, company's range of tugs includes battery-powered, LNG-fueled, methanol, hybrid, and autonomous vessels. Sanmar also manufactures pilot boats and mooring boats tailored to customers' specific operational needs.

ABOUT COMPANY:

40 Sanmar has been providing services to the world's leading operators since 1976 and is now leading the industry towards a new era of environmentally-friendly low and no-emission tugboats.

Using often exclusive designs from leading naval architects Robert Allan Ltd, Sanmar's wide portfolio of vessels, constructed at its two eco-friendly purpose-built shipyards in Türkiye, now includes ground-breaking battery electric tugs, and tugboats using alternative fuels such as LNG and methanol.

With a large stock of tugs for immediate delivery and a big team of engineers ready to develop custom solutions, Sanmar is ready to deliver well-equipped vessels that meet the highest standards of finish, comfort, and safety.

Sanmar's clients include many major international operators involved in a wide range of specialist activities, often in challenging conditions, including towage, ship-handling, salvage, emergency response and offshore operations. More information on Sanmar can be found on: www.sanmar.com.tr
